

Professional Railway Rolling Stock

Executive Program

COURSES OFFERED

Basic Rolling Stock

Operation & Maintenance
(Elective)

System Design
(Elective)

Synopsis

This programme explores the design, operation, and maintenance of railway rolling stock — the vehicles that form the backbone of modern rail systems.

Participants will gain practical understanding of traction systems, braking, suspension, and key components that ensure performance, safety, and comfort.

INTAKE : FEBRUARY & SEPTEMBER

TOTAL CONTACT HOURS : 80
